

AGM 2020: Secretary's Report

Membership

With the growing population at Harmers, our membership continues to grow. Currently we have seventy one individuals on our email distribution list, members plus people who have attended recent working bees and expressed interest in being kept informed of our activities.

An online AGM

We are an incorporated association under the umbrella of Consumer Affairs Victoria (CAV), and as such required to hold an AGM and put in a report to CAV each year, including details of income and expenditure as accepted at an AGM. For this reason we have had to hold our AGM online this year, as we cannot afford to wait indefinitely to the time when all Covid 19 restrictions on gatherings are lifted.

Our proposed Zoom meeting may not be trouble free for everyone, but I am hoping to will work sufficiently well to give most members the opportunity to hear what has been happening and to participate in discussion.

General

As you will see from other reports, the executive has been busy this year, especially in connection with the Government's proposed walking trail from San Remo to Inverloch. Various individual members have attended a wide range of meetings to keep an eye on how Harmers may be impacted.
